Summary

Data management and supply chain analyst with a decade of experience enhancing master data integrity and optimizing ERP systems in healthcare. Skilled in Microsoft, SQL, and VBA to automate forms and reports, streamline procure-to-pay, and boost data accuracy, while reducing process times across enterprise purchasing and patient services.

Skills

Data and databases: SQL, MySQL, Microsoft Access, Dataverse, phpMyAdmin, Oracle Database, ETL, ERD

Automation and programming: experience in both server-side programming and front end, query writing, Microsoft 365 (Power Apps, Power Automate, connectors), VBA, macros, PHP, jQuery, Ajax, HTML, CSS, OOP, R script, Oracle SQL Developer

Systems: Microsoft, Workday, ERP systems, CRM systems, ServiceNow (admin), EDI, EMR

Analytics: econometrics, statistical modeling, data visualization, predictive modeling

Compliance and governance: ISO 27001, ISO 13485, data quality assurance, strategic product sourcing

General technical skills: data interpretation, warehousing, organization, structure, building data relationships, high volume data, HTTP server hosting, web design

Professional Experience

Trimedx April 2022 to November 2025

Master Data Coordinator II

- Completed data implementation for a cross-functional project, onboarding 50 hospitals and 60 clinics across PA and NY.
- Managed and resolved multiple ServiceNow ITSM ticket queues; solely responsible for incidents impacting Workday.
- Acted as an escalation point for complex master data and ERP integration issues, providing stakeholder support.
- Supported supplier EDI onboarding and catalog integration, providing ongoing internal and external support.
- Conducted and documented user acceptance testing for system enhancements.
- Mentored and trained new employees, including all three of the master data teammates.

Trimedx May 2020 to March 2022

Master Data Coordinator

- Automated recurring audit processes in Excel with VBA macros, reducing audit time by over 50%.
- Managed master data governance for 500k+ records, ensuring compliant, accurate data in the TRIMEDX purchasing system.
- Resolved pricing discrepancies for 17k suppliers, addressed sourcing delays, and identified risks and opportunities.
- Led mass data cleansing and validation projects that ensured compliance with ISO 27001 and ISO 13485 standards.
- Developed process documentation and system improvements, expanding user capabilities.
- Built strong relationships with customers, suppliers, engineers, and procurement specialists through clear communication and collaboration.

Trimedx September 2019 to April 2020

Procurement Specialist I

- Stringently uphold three-way verification requirements to ensure accurate medical equipment service records.
- Source and audit incoming invoices and field service reports (FSRs), promptly rectifying discrepancies.
- Assist technicians and vendors through the vendor service request process and compliance requirements.
- Create and update parts & service records, contributing to the ongoing development of pricing database.

Reliable Home Healthcare Services, LLC February 2016 to September 2019

Office & Database Manager

- Built and managed a relational Microsoft Access database, deployed organization-wide.
- Cleaned, validated, and input all initial data sources. Designed tables, relationships, validation rules, and input forms to ensure data integrity and compliance with healthcare regulations for patient and employee records.
- Developed SQL queries powering 50+ automated forms and reports, enhancing quality control, and reducing workload.
- Supported hiring, scheduling, payroll, regulatory reporting, and state audit compliance.
- Represented the company at annual conventions, building relationships with medical companies.
